Rear axle

Original build-up commercial vehicle axle with disc brake and differential (Type MB Atego 7,5 to).

The axle is prepared for de- and mounting of the disc brakes and the differential.

The assembly exercises can be accomplished as far as possible without special tools.

The assembly unit is installed on a mobile stand.

Order-number:

0090 1520

Technical data:

Dim: approx. 2000x600x 250 mm

Weight: approx. 350 kg
